The Ardencote Spa team were proud to accept their latest award from Pevonia Botanica for Best Newcomer of the Year 2008, on Friday 14th August.

Spa Manager, Samantha Miller, collected the award on behalf of the team, which was presented by Hayley Baker, Pevonia UK Ltd.

Maja Foster, Marketing Manager at Ardencote Manor Hotel told *The Observer*: "In 2008, Ardencote Spa changed its range of products and moved to Pevonia Botanica, which was new to the British market."

Ardencote Spa knew the credentials of the brand were excellent, but being new within the UK, realised changing brands could be quite a risk.

Maja explained: "Today we know that risk was worth taking, our clients love Pevonia products and treatments, and that, in turn, has helped us to become the Pevonia Newcomer of the Year."

"We are extremely proud to be given this award, it means all our hard work and efforts have not gone unnoticed!" Maja continued.

Beauty Therapists Gemma Strain, Katherine Ronnie (seen pictured) and Marta Pastuszka (who could not be present) were

also celebrating winning Student of the Year 2009 awards, with Katherine proudly claiming the Student of the Year 2008 award also.

The ceremony was held, with all members of the Spa's staff, within the Chill Out Room (VIP Lounge), which was opened in June, earlier this summer in response to spa guest's requests for a quiet, nice area in which to relax in-between treatments.

Maja told us: "The new room is peaceful and relaxing. It is an environment where guests can unwind, enjoy a drink, read a book or magazine or simply chill out."

Ardencote Spa is dedicated to the highest quality products, services and therapies with their latest award proving this truer than ever.
